

3M™ DUAL LOCK™ RECLOSABLE FASTENERS

3M™ Dual Lock™ Reclosable Fasteners are a fastening solution that can replace screws, bolts and rivets. The fasteners contain hundreds of mushroom-shaped stems that audibly "SNAP" together to form a secure attachment with strong adhesive backings that adhere to your substrate. Adjust, realign or reattach with ease, leaving your product with clean, smooth lines free of holes or interruptions.

Whether you are a manufacturer of electronics, automobiles, household appliances, kitchen cabinets or a homeowner wanting to protect your home's surfaces, 3M™ Bumpon™ Self Adhesive Rubber Bumpers have a color, shape and size to meet your needs. There's a reason why 3M Bumpon products are used worldwide. They are made from high quality polyurethane with reliable adhesives that deliver the long lasting performance you've come to expect from 3M.
